👤 Profile

I am Oluwadare Emmanuel Temidire, a dynamic and innovative software developer based in Lagos, Nigeria. With a profound passion for mobile development and a keen eye for user experience design, I have carved a niche for myself in the tech industry through a blend of technical expertise and creative problem-solving.

📁 Professional Experience

Meta AI, Image Collection

07/2024 – 09/2024 | USA

- Curated and annotated a diverse dataset, enhancing the AI's ability to recognize and categorize objects in varied contexts.
- Verified AI-generated labels for accuracy, creating a robust dataset that improved object recognition performance across multiple applications.

Pettify (Start-up), Mobile Developer

05/2024 – present | Lagos, Nigeria

- Developing and maintaining mobile applications using Dart and Flutter to enhance user experience and engagement.
- Implementing backend solutions with Firebase and MongoDB to ensure robust data storage and retrieval systems.
- Collaborating with the design and product teams to create intuitive and user-friendly interfaces.
- Integrating third-party APIs and services to extend app functionality.
- Conducting code reviews and testing to ensure high-quality and bug-free applications.
- Working in an agile environment to deliver features and updates efficiently and effectively.
- Developed a feature that increased user engagement.

Meta AI, AI Voice Training Specialist

11/2023 – 02/2024 | (Remote), USA

- Collaborated on the project to enhance the AI voice capabilities of Ray-Ban smart glasses. This involved recording various sentences to train the AI on diverse voice modulations and pronunciations.

- Ensured the accuracy of the recorded sentences by meticulously checking for correct spelling and pronunciation, which was critical for the AI's ability to understand and respond accurately.
- Participated in testing scenarios to simulate real-world usage, ensuring the AI could handle a wide range of accents and speech patterns, thus enhancing the user experience and enhancing AI accuracy by 10%.

Flex, Mobile Developer

01/2023 – 05/2023 | Lagos, Nigeria

- Spearheaded mobile development using Java and XML, employing material designs and consistent UI implementation made available by a product designer.
- Worked with the backend team for the implementation of various API's and endpoints.
- Integrated third-party libraries and frameworks to enhance application functionality.
- Implemented JUnit testing for code efficiency before deploying APK.
- Utilized Git for version control and collaborated with team members using GitHub

ALX Africa, Software Developer (Internship)

01/2023 – 11/2023

- Contributed to the backend infrastructure by architecting microservices using API Gateway and Spring Boot to enhance and also accommodate growing user demands.
- Conducted multiple testing and debugging of systems, ensuring their reliability under varying conditions for an optimal performance for users accessing the platform.
- Pioneered the creation of reusable UI components for ALX Africa, increasing the visual appeal and functionality of the platform.

HNG, Software Engineer (Internship)

03/2022 – 10/2022 | Lagos, Nigeria

- Developed and maintained Firebase backend services for real-time database management and seamless authentication workflow.
- Implemented RESTful APIs using Retrofit to fetch and display data from backend servers.
- Participated in code reviews to improve code quality and maintainability.

Education

Professional Diploma,

National Institute of Information Technology
Software Engineering

2020 – 2023 | Lagos, Nigeria

Skills

Programming Language

- Dart
- Java
- SQL
- HTML5
- CSS

● ● ● ● ●

Backend Development

- Firebase
- RESTful APIs

● ● ● ● ●

Other

- AI Training and Testing.
- Database design.
- Agile Methodologies.
- UI/UX Design Principles.
- Problem-Solving Skills.

● ● ● ● ●

Mobile Development

- Flutter
- XML
- Android Development

● ● ● ● ●

Tools & Technologies

- Git/GitHub
- CI/CD
- Postman
